## Freedom Forearm Elbow Crutches

### CWF220, CWF221 & CWF222

- ✓ The hand grip has a special ergonomic shape which distributes weight evenly over the surface area of the palm, decreasing hand fatigue and adding comfort.
- ✓ Height adjustment - Cuff to handle adjustment
- ✓ Height adjustment - Handle to floor adjustment

#### CWF220 – Tall

| f/arm cuff height     | handle height      | handle to cuff       | unit weight | weight capacity |
|-----------------------|--------------------|----------------------|-------------|-----------------|
|                       |                    |                      |             |                 |
| min99cm<br>max128.5cm | min75cm<br>max97cm | min25cm<br>max33.5cm | 0.9kg       | 130kg           |

#### CWF221 – Adult
